CUSTOM LIBRARY EXPERIENCES

EAST DUBUQUE PUBLIC LIBRARY PROGRAM

CHALLENGE: How to expose communities to animals and educational programs that they might not encounter on their own.

SOLUTION: The River Museum travels both historical and live animal-based programs to communities. Bringing animals like sharks to audiences in the Midwest can provide a memorable way for libraries to connect local resources to the big picture. We are able to engage adult audiences through programs like “Are You Smarter than an 8th Grader?” where learners can try to answer questions from an 8th grade graduation exam from the late 1800s. These programs attract and engage a variety of constituents from within the community.

Educational, fun, and perfect for preschool and elementary aged children. A great experience and value for schools or libraries.”

BRIAN L. GOMMEL
Director, EDDL
